

We *Need* a Law

*because all human beings
have human rights*

Canada is the only democratic country in the world to have zero laws protecting pre-born children.

<http://www.worldabortionlaws.com/>

Ask your local candidates where they stand on abortion, and let them know that pre-born children matter to you.

Some questions you could ask:

- 1 How will you represent pro-life people in your riding if you are elected?
- 2 Are you aware that Canada has no abortion laws? How will you protect pre-born children?
- 3 What do you think about an International Standards Law, that would make Canada more similar to other democratic countries by restricting abortions after the first trimester?
- 4 Would you support a sex-selective abortion law, that condemned abortions based only on a child's sex?

Get to know your local candidates, and if there's one you strongly support, consider volunteering for their campaign! Building relationships now can be very valuable later.

Thank you for helping us let politicians know that pre-born children matter to Canadians.
